Women’s History Month

March is Women’s History Month and we are celebrating influential women who have shaped, and continue to shape, our world!

Did you know that Royal Neighbors of America was founded exclusively by women?!?! The organization was established in 1895 by nine strong women with a mission. These women knew that other families needed insurance protection, and they were the first to provide life insurance for women and children. Through volunteering, they help empower woman and local communities where they live, work, and play. Royal Neighbors has over 215,000 members, 200 chapters nationwide, over 258,000 volunteer hours to their communities annually, and have done over 17 million dollars worth of good deeds! This year, Royal Neighbors is celebrating 125 years of service!

The Silvis Royal Neighbors (Chapter 20167) partners with the Friends of the Silvis Library to sponsor many of our library programs - and their members volunteer there time at these events too! In 2019, the Royal Neighbors sponsored 132 Silvis Library programs! Their dedication and support is a vital part of the library.

This month, take a moment to thank the women in your community, and family, who shape YOUR world!
